

Group Buying Power

(and how to get it).

Lower your credit card payment processing fees.

An Exclusive Chamber Member Benefit Program from the Trotwood Chamber of Commerce

You are paying **MORE THAN YOU SHOULD** for payment processing.

There is no reason why you should be paying nearly twice what it actually costs to process a credit card payment. And now you don't have to. The Trotwood Chamber of Commerce has partnered with Infintech to bring our members much lower rates through the combined group buying power. With lower fees across the board, you get the savings that maximize your profits.

■ Fairness is good for your business.

Yes, it costs money to process credit card transactions, but it's not fair for companies to make a fast buck at your expense. Infintech's low, fair fees lead to a long-term relationship with you.

■ Transparency means no surprises.

Infintech sets a fixed fee for your payment processing—a fee that stays the same for as long as you work with them. It's called **Cost-Plus Pricing**. It is why you know exactly what you'll see in your monthly statements.

■ Relationships are stronger than contracts.

Infintech doesn't believe in forcing people to do business with them. That's why Infintech doesn't ask you to sign long-term contracts. With their significantly lower fees, personalized service and fair business practices, Infintech customers really have no reason to leave.

■ Why change banks if you don't have to?

Infintech is bank neutral. They are not affiliated with any banks. So if your members like doing business with their own bank, so does Infintech.

How much can you save?

Free Cost Savings Analysis

The Trotwood Chamber of Commerce has partnered with Infintech to bring our members lower fees for their credit card payment processing services. 99% of Infintech customers already realize significant savings. How much can you save through this exclusive Chamber Member Benefit Program? **It's easy to find out.**
