## **BWC's 10-Step Business Plan for Safety**

With BWC's 10-Step Business Plan for Safety employers can focus on implementing a more effective safety plan one step at a time as opposed to getting lost in the "where to start" phase of the big picture. While some of the BWC programs require employers to complete the 10-Step Business Plan for Safety, it can also be a good resource for companies looking to implement a new safety program or simply improve an old one.

Please watch our monthly newsletters/website each month, as we will be highlighting each step. If you are anxious to get started or simply can't wait for the next step to be released you can visit Hunter Consulting Company's website at [www.hunterconsulting.com](http://www.hunterconsulting.com) for the full plan outline.

The ultimate key to controlling workers' compensation costs lies in preventing workplace accident in the first place. The Ohio BWC can help employers do that. The 2012-2013 Safety Services Catalog describes the collection of **free** programs, services and resources available to help keep employees safe.

The catalog is available electronically at <https://www.ohiobwc.com/downloads/blankpdf/SafetyServicesCatalog.pdf>. This electronic version is easily searchable by specific term/terms using the CNTRL + F keys.

Or, copies of the Services Catalog (DS23) can be requested by visiting our web site at <https://www.ohiobwc.com/employer/forms/publications/nlbwc/SafeHygPubs1.asp>.

"Everyone has inside of him/her a piece of good news. The good news is that you don't know how great you can be! How much you can love! What you can accomplish! And what your potential is!" - Ann Frank
