Live To Work Another Day

In the day to day pressure to get product out, customers serviced or projects completed, safety can be overlooked. It is usually not done on purpose, but in the rush of the moment, the immediate need may outweigh safety considerations.

Often times, the actions of supervisors both physically and spoken, lead employees to believe that taking short-cuts or working unsafely is expected or required as part of the job. The need for speed can be a powerful motivator and supervisors that are under pressure to perform, many times use the wrong methods to get employees to complete tasks on time.

It needs to be made clear however, safety practices are not only expected but mandatory. Safety is a one day at a time, one direction at a time activity. By the actions taken by a supervisor employee safety can either be positively motivated or negatively motivated.

If you have any safety related or need help with your Safety Program, please call 1-800-356-1274 or visit Hunter Consulting Company's website at www.hunterconsulting.com

If you wonder how the Affordable Care Act (ACA) may impact your company, Anthem Blue Cross and Blue Shield and the Southern Ohio Chamber Alliance (SOCA) are here with answers.

We know you don't have time to read the entire ACA. That's why we brought together all the important information you need to know in one helpful website — www.makinghealthcarereformwork.com.

As a chamber member with 2-50 employees, you can get a discount on any health plan from Anthem Blue Cross and Blue Shield — including industry-leading HSAs, HRAs and HIAs.* Despite the ongoing changes and confusion surrounding health care reform, your local chamber continues to offer employer insurance options with a 1.4% discount exclusively for chamber members! SOCA has created a new health program that offers potential savings to businesses with less than 50 employees.

Information for this plan can be obtained by visiting SOCA's website at www.soca.org click on benefits, Anthem Blue Cross/Blue Shield. This plan is administered through a broker.
