Mission: To work with businesses, government, the non-profit sector, and individuals to build a positive economic environment to ensure and enhance quality of life in Trotwood and the region.

Coming together
is a beginning;
keeping together
is progress;
working together
is success.

Henry Ford

Who would have thought we would have a tornado that would destroy many homes and property in the Miami Valley May 28, 2019? A lot of property damage, but no lives were lost in Montgomery County. We are so thankful that God spared our lives.

The services (phone and internet) were not available at the Chamber for almost two weeks and we certainly thank you for your patience. The businesses, cities, volunteers and everyone that assisted, thank you so very much. It was amazing to see everyone working together for the good of all people.

On behalf of Trotwood Chamber of Commerce, we extend our appreciation to everyone near and far, that worked so hard to help the citizen in Trotwood and surrounding areas. We appreciate all you are doing and continue to do to

help. May we continue to work together in peace, unity and love.

Unfortunately the Business Informational Networking Group, *Self-Driving Car* presentation by AAA, was postponed. We are currently working on a date and will keep you information on the date this presentation has been rescheduled.

We encourage you to patronize businesses in our community. They are vital to the sustainability of our community, Miami Valley and beyond.

Marie Battle, Executive Director

Dealing with Employees Safety Behavior Problems - By Gary Hanson

Safety unfortunately is not always an employee's top individual priority. They take their safety for granted or they think accidents happen to other employees. Many times, during the day they may let outside factors influence their decision-making process. They may feel pressure to complete a particular task therefore they get in a hurry. They may take short cuts to speed up a process or we may be thinking of some other more exciting activity. They simply may not recognize the potential serious risk of a particular task and make the wrong decision.

If there is a concern that an employee may be under the influence of drugs or alcohol you may want to have that employee take a drug or alcohol test. If you do, don't let the employee drive themselves. Take the employee and bring them back. Then call their family to have someone take them home. Don't let them drive if you suspect they may be under the influence. If they refuse to go for the test that could be terms for dismissal.

Pay attention to the signs that an employee

may be at risk and counsel the employee on these when necessary. If counseling isn't feasible or the behavior is such that an employee is likely to be at risk for a serious injury or cause a serious injury to other employees then that employee may not be a suitable candidate for continued employment.

Remember Safety Has to be Proactive Not Reactive.

If you have any safety problems or need help with your safety program, please call me on my cell at 1-330-495-3437 or at my office at 1-330-854-4577.

Hunter Consulting Company provides comprehensive consulting and claims administration in the area of Workers' and Unemployment Compensations.
