Pending Legislation

Addressing Challenges to Small Employer Retirement Plans

According to NAPA (lobby committee in Washington for Retirement Plans), there is legislation that is imminent (estimated to pass before year end):

1. All Companies with 5 (or 10) employees are required to offer a retirement plan by 1/1/2023
 2. Companies will have a choice between 401k plans or a state sponsored IRA Payroll Deduction plan
 3. 650,000 companies in US would be affected by this legislation
 4. All plans must have an auto-enroll provision (3%)
 5. All 401k plans will have first 3 years of administrative fees waived
- Failure to comply will result in fines (\$750/employee/year)

Note: this is pending legislation and not officially law today
